# 9 BENEFITS

## You Receive When You Purchase Fibreglass Furniture

Fibreglass Planters and Pots are made of a composite material formed from fibres of spun glass mixed and held together with resin. Often it is referred to as FRP or fiberglass reinforced plastic. The planter or pot is manufactured using the following process: The resin is mixed and poured into the mould, then brushed on the mould walls. Then sheets of fiberglass are placed in the mould over the resin layer to give the planter or pot structure. It is then that a chemical reaction takes place. The fiberglass and the resin heat up and harden. This creates a product of immense strength with similar properties to steel but at only a quarter of the density. Therefore when you are choosing your planters or pots, fiberglass is the natural choice. We only use the highest quality fiberglass to manufacture our planters and pots.

01

### LIGHTWEIGHT :

Compared to timber, metal or concrete furniture, fiberglass is very lightweight. This means that items such as bench seats can be easily relocated from indoors to outdoors or wherever you need them.

02

### STRENGTH :

FRP has the properties of steel at 25% of its weight. It has a high strength to weight ratio. They use fiberglass reinforced plastic in the production of pedestrian bridges and cantilever walkways, so it must be strong to stand up to those forces.

03

### WATERPROOF FREE

Our fiberglass products are totally resistant to chemicals, alkalis, and liquids. They resist the harsh effects of weathering, degradation, and aging, producing an extremely long and more efficient life. Metal furniture rusts, and wooden seats splinter and rot. Fiberglass is also shatterproof, resistant to salt, mold, mildew, and frost, therefore you can leave our furniture outdoors. It will keep on going virtually forever, always looking great.

04

### UV & FIRE RESISTANT

The furniture won't be affected by UV rays. You will never need to worry about the colour fading. Glass fibre reinforced plastic has great fire resistance as well.

05

### EASILY CLEANED :

They really don't require maintenance  
Just a wipe over with a damp rag  
or maybe some light detergent will  
bring back their shiny appearance.

06

### SAFE & NON TOXIC :

Plastic furniture's manufacture when  
coloured pigment is mixed with plastic  
can be toxic. Automotive paint and  
glaze are applied to the outer surface  
of FRP furniture making it  
totally safe

07

### RECYCLABLE SUSTAINABLE :

Fibreglass Reinforced Plastic or FRP can be  
recycled. Varied techniques can be  
implemented to develop different  
components. These products can be formed  
by making use of recycle material that  
is generated by crushing the composites

08

### STYLISH AND ELEGANT

FRP furniture will perfectly complement  
your surroundings .Colours can be used to  
complement or contrast with your decor.  
Fibreglass can be made to mimic all sorts of  
materials. They can be made to look like  
timber, stone, timber or whatever material you  
choose . If there isn't something in our extensive  
range then give us a call and we will see if  
we can create it for you.

09

### ISO 9001 & BUREAU VERITAS :

All of our products are manufactured under the  
international quality control process ISO 9001 .  
That means that every piece is thoroughly  
inspected at various stages during the  
production process If any unit doesn't  
meet the standard it is rejected and junked.  
Bureau Veritas has been appointed by us to  
provide final inspection reports on all items  
leaving the factory thus ensuring that the  
products will arrive exactly as you would expect

BENCH SEATS

## COBBLESTONE SEATING

Truly unique to us As the word advises these cobblestone shaped bench seats truly look like the cobblestone you see at the beach. They are carefully crafted to provide this look. They provide comfortable bench seats for the public whether it is in a shopping centre or in an outdoor setting. They are UV resistant so can be used anywhere.

BENCH SEATS

## AMBOYNA TIMBER BENCHES

These truly unique Timber Benches are handcrafted out of solid Amboyna Burl Timber so no two are exactly the same. It is an exotic timber that is very hard and highly valued for making furniture. They are made by handcutting a large section of a log. They would be well suited to a large reception area or as a feature on the ground floor vestibule.

## CARTOON BINS

Cartoon Character Waste Bins are ideal for theme parks, child care centres or parks. These bins will ensure children use these effectively. Some of the designs we have are Cinderella, Sponge Bob and a Mermaid. Should you require any other specific design let's know and we will see what we can do for you.
